return on investment!*

# Mining

## Reduce equipment operating costs with a SpiralTrac Environmental Controller!

Works with  
ALL  
Rotating process  
Equipment

### Process Pumps

- Allis Chalmers
- ASH Pumps
- Blackmere
- Goulds
- GIW
- Warman
- Worthington

### Applications

- Iron ore
- Copper
- Bauxite
- Phosphate
- Silica
- Lead
- Wetfil
- Kaolin
- Saturated brine
- Coal
- Lime
- ...and many others

Reduce flush 74% to 100%\*

Significantly extend mechanical  
seal and packing life

Reduce leakage

Improve MTBR

Easy to install

Reduce housekeeping costs

SpiralTrac is a revolutionary environmental controller for seal and packing chambers, that has established new standards **worldwide** for exploiting the **maximum performance** potential of rotating process equipment in the mining industry.

A SpiralTrac Enhanced Environment increases the sealing element life span, while decreasing flush and product leakage at the same time.

**The better the environment inside the chamber, the cleaner the environment outside the equipment.**

Contact EnviroSeal for equipment specific and product ordering information

\*Elimination of flush is dependent on the type of application. Please contact EnviroSeal to determine your applications suitability for total flush elimination.
