

SpiralTracTM

*Enhanced Environment
for the Pulp & Paper Industry*

- ✓ Reduce leakage
and
- ✓ Reduce flush
while
- ✓ Increasing MTBR

See the difference!

*Enjoy an immediate
return on investment!*

Pulp & Paper

Reduce equipment operating costs with a SpiralTrac Environmental Controller!

Agitators

- Ahlstrom
- Andritz
- Beloit

Refiners

- Bingham
- Black Claussen
- Canron

Process Pumps

- Chesterton
- Durco
- Goulds
- Greey Lightnin

Screens

- Impco
- Jones
- Prochem
- Sprout Bauer
- Sprout Waldron

Pulpers

- Sunds
- Valmet
- Warren

Reduce flush 74% to 100%*

Significantly extend mechanical
seal and packing life

Reduce leakage

Improve MTBR

Easy to install

Reduce housekeeping costs

Applications

- Black Liquor
- Stock (1-6%)
- Unclarified green Liquor
- White Water
- Bleach / chlorine
- Make up liquor
- Condensate
- Wood chips
- Spent Liquor
- Lime slurry
- Effluent

...and many others

SpiralTrac is a revolutionary environmental controller for seal and packing chambers, that has established new standards **worldwide** for exploiting the **maximum performance** potential of rotating process equipment in the Pulp & Paper industry.

A SpiralTrac Enhanced Environment increases the sealing element life span, while decreasing flush and product leakage at the same time.

The better the environment inside the chamber, the cleaner the environment outside the equipment.

Contact EnviroSeal for equipment specific and product ordering information

*Elimination of flush is dependent on the type of application. Please contact EnviroSeal to determine your applications suitability for total flush elimination.
